

Share your ideas with us and we'll

# custom design your dream home.

In many cases, a standard design may not suit your requirements. A Marksman Homes custom design can provide a floor plan layout that is designed specifically to suit your block of land, budget and lifestyle.

- From the comfort of our head office, share your ideas with our Building Designer so we can begin creating your dream home.
- We will listen to what is important to you. Your lifestyle...your family...and what you desire from your new home.
- We will discuss building material selections, energy efficiency, council and statutory requirements, inclusions and specifications.
- We will design your home to meet your budget guidelines and expectations.
- We will present you with a competitive costing estimate of the plans.
